

## CONTENTS

Preface .....	i
Presidents of the Materials Research Society of Japan .....	ii
<b>Inauguration of the Materials Research Society of Japan (MRS-Japan) – Influence of Two American Scholars – Professors R. P. H. (Bob) Chang and Rustum Roy</b> .....	1
Shigeyuki Somiya	
 <i>Review Papers</i> (These papers were first published in Transactions of the Materials Research Society of Japan, Vol. 35, No. 3 and No. 4. They appear in this issue without modification.)	
<b>Nano-structure design of doped ceria solid electrolytes for intermediate temperature operation of solid oxide fuel cell</b> .....	5
Toshiyuki Mori, Ding Rong Ou, Fei Ye, Jin Zou, John Drennan, and Alstair N. Cormack	
<b>Organometallic Chemistry on IV Semiconductors and Potential Applications</b> .....	17
Naoto Shirahata	
<b>A Possibility of Heavy-Metal Recycling by Utilizing Hydrogels</b> .....	23
Kazuhiro Hara, Satoru Yoshioka and Tetsuaki Nishida	
<b>Effect of Interface Structure on Microstructural Evolution in Polycrystals</b> .....	29
John G. Fisher and Suk-Joong L. Kang	
<b>C60 Photo-Polymerization using Free Electron Laser</b> .....	35
Hiroshi Yamamoto and Nobuyuki Iwata	
<b>Impact of Solid State Lighting on Energy Utilization and Environmental Conditions</b> .....	41
Robert F. Davis	
<b>Ceramic Powders for Advanced Ceramics: What are Ideal Ceramic Powders for Advanced Ceramics?</b> .....	47
Shigeyuki Somiya, Sridhar Komarneni and Rustum Roy	
<b>Lattice parameter, defect concentration and oxygen diffusion in ceria solid solutions</b> .....	59
Yasuro Ikuma, Srinivasan Anandan, and Koichi Niwa	
<b>Peculiar Electrical and Magnetic Properties of La(Ba)MnO<sub>3</sub> Thin Films</b> .....	65
Tamio Endo, Kenichi Uehara, Tatsuya Yoshii, Miyoshi Yokura, Hong Zhu, Josep Nogues, Jose Colino, Kazuhiro Endo	
<b>Flux-pinning mechanisms in high current density superconducting YBa<sub>2</sub>Cu<sub>3</sub>O<sub>7</sub> films</b> .....	77
Hirofumi Yamasaki, Kotaro Ohki, Hiroshi Yamada, Katherine Develos-Bagarinao, Yoshihiko Nakagawa, Yasunori Mawatari	
<b>Growth Control of High-Tc Superconducting Thin Films for Future Electronics</b> .....	85
Kazuhiro Endo, Petre Badica, Hidehito Nanto, Hiroshi Kezuka, Shunichi Arisawa, Tamio Endo
